Look back on the 2021 year !

The 2021 year was.....

Despite the epidemic situation, the BIOTechno Paris team adapted to continue to inform and support PhDs students, engineers or young researchers in their transition outside of academia. We organized a series of events in a 100% digital format as:

Virtual round tables with thematic as :

- R&D in industry
- Clinical research
- Data science & Bioinformatic
- Popularization of science
- Biotech in the state policy
- Consulting in Life sciences
- Entrepreneurship in biotech
- Medical and scientific writing

Interviews to make you discover some associations, some news start-ups/companies but also to highlight some little-known jobs

Partnerships (Merck, Ionis-STM and Kelly Life Science)

Workshops with *Kelly Life Science* to enhance the skills acquired during the PhD but also to help in the professional integration.

The BIOTechno Paris team 2022!

Welcome to the news members of the BIOTechno Paris team !

Round Table [Clinical Reasearch: MSL and CRA](#) – [BIOTechno Paris](#)

Date and time : 28th Feb, 6.30 p.m

Virtual event in English

BIOTechno Paris is happy to invite you to take part in its next virtual **Round Table: Clinical research: MSL and CRA**. Come to join us for a lively discussion. CRA and MSL are both professional figure in the health sector :

Clinical Research Associate or **CRAs** have the role to supervise and coordinate the execution of clinical trials for pharmaceutical companies, hospital research departments, or contract research agencies. Their mission include preparing study documentation, visiting the site of the trial, collecting patients data and ensuring the compliance of the protocols.

Medical Science Liaison or **MLSs** are responsible for establishing and maintaining relation with clinicians, physicians and researchers who are key opinion leaders in the hospital, academic institutions and pharmaceutical companies. They concentrate on a specific therapeutic area and they utilize their research and communication skills and provide doctors and other interested parties with information about new medical products.

Volunteer Journalists

- Are you involved in the organization of an event interesting for young scientists and want to promote it ?
- Will you participate to one of these **events** and are willing to write a **review** afterwards for our newsletter ?
- Do you want to **signal an event** to add it to our calendar section ?
- Do you have an **idea for a content** that could fit in the BIOTechno newsletter ?

Become a Partner of the BIOTechno Network!

Private Industry / Startups / Institutions

In 2020, more than 30 private and institutional partners supported the BIOTechno network. You can also become our partner, get the opportunity to **meet young professionals with a solid scientific background** willing to develop their career in the biotechnology field. You will be able to **present your company** to a **targeted audience** during the BIOTechno events 2022 :

- Monthly webinars organized by the BIOTechno Paris team (biotechno.paris@gmail.com)
- BIOTechno Forum organized by the BIOTechno Paris team
- Networking evening sessions

You also have the opportunity to **publish job offers for your company** in our monthly newsletter. Your next talented employee is probably a member of the BIOTechno network !
