BIOTechno Paris Forum 2023 is coming soon !

BIOTechno Forum Paris is coming back for its **26th edition** !

Friday, 29 September 2023 -  **Cité Internationale Universitaire, Paris**

- ✓ Are you a master student, PhD student, scientist or researcher in life sciences ?
- ✓ Do you want to pursue your career in the private sector ?
- ✓ Would you like to meet companies that are recruiting ?

Come to meet industrial and institutional partners to boost your careers, support your recruitment and strengthen professional networks in life science sectors!

Last year, we welcomed :

+300 participants
searching for a job

+20 speakers

+30 hiring
companies

Take a look about the program for this new edition. [Registration](#) is now open !

FORUM PROGRAM

SEPTEMBER 29, 2023

8h30	<i>Welcoming of the participants</i>					
9h00	OPENING SPEECH					
9h15	PLENARY CONFERENCE					
10h00	Forming the next generation of European interdisciplinary scientists Ariel Lindner					
10h30	NETWORKING COFFEE BREAK - Partners Stands					
10h45	Flash presentations of our partners					
11h30	PLENARY CONFERENCE					
12h00	Key insights from the 2022 Biotech Landscape France Biotech					
12h00	Flash presentations of our partners					
LUNCH BREAK – NETWORKING Partners Stands						
ROUND TABLES & WORKSHOPS						
13h00	<i>Amphitheater</i>	<i>David Well</i>	<i>Gulbenkian</i>	<i>Wilson</i>	<i>Biermans</i>	
14h15	Round table: Technology transfer	Round table: Working in government offices	Workshop: Négocier son salaire FRANCAIS! APEC	Workshop: CV correction KELLYSCIENCES	Workshop: Motivation letter correction ABG	
14h30	Round table: R&D	Round table: Funding innovation	Workshop: Optimize your linkedin profile KELLYSCIENCES			
15h45	NETWORKING COFFEE BREAK - Partners Stands					
16h15	Round table: MSL	Round table: Scientific Communication	Workshop: Transferable skills MAASC			
17h30	CLOSING SPEECH and AWARDS					
COCKTAIL						

The Stands Village: Meet our partners

All day: professional photographer

Meet our ASSOCIATIONS !

Discover the associations that form the Réseau Biotechno.

Our associations come from all over France. Among them, **YR2I**, **StraPa**, **JeCCo** and **ADIC** contribute to organise the **Forum Biotechno Paris** ; **ADDAL** and **SPB** help to organize **Forum Biotechno EST** ; **Glob'Alps** participates in the organization of **Forum Biotechno AuRA**. **Bio'M** association was created to organize **Forum Biotechno SUD**. In addition, this year we are welcoming 2 new associations : **SPB** and **Interpharm**. We also have people participating in the Réseau Biotechno missions in Bordeaux and Toulouse... Who knows, maybe soon there will be a **Forum Biotechno Sud-Ouest**... ?

Meet our ASSOCIATIONS !

Addal (Association des doctorants et docteurs alsaciens) is an association gathering Ph.D. candidates and doctors from different disciplines. The main objectives of Addal are promoting doctoral training, informing Ph.D. candidates about career prospects following the Ph.D., and encouraging Ph.D. candidates and doctors to get acquainted; in addition to defending their rights.

Bio'M (Biotechno Marseille) aims to help students and young scientists discover the different career paths that exist in biotechnology. We are a team of research associates, PhD students and postdocs who work together to organise a yearly forum since 2022 : Forum BiotechnoSUD. We also work in collaboration with the Réseau Biotechno by helping in some of their missions and with the planification of monthly webinars and newsletters.

Created in 2013, **YR2I** (for Young researchers of Imagine Institute) association is supported by the Imagine Institute. Our missions are :

- Gather and represent Master students, PhD students, post-doctoral researchers and engineers
- Reinforce young researchers participation to the Scientific life of the Institute
- Organize scientific and social events to promote communications between Imagine Institute members
- Inform students and young researchers about doctoral training and their opportunities, as well as on possible career redirections.

Doc' En Herbe organize an event, the PhD Days. This is a meeting between doctoral students involved in biology, ecology, plant sciences, genetics, evolution and agronomy to present and share their work in an oral presentation or a poster. In addition, exceptional guests from the research world are invited to present their career and main research and to make connections with young researchers.

Meet our ASSOCIATIONS !

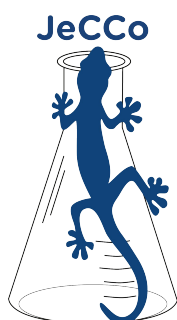

The goals of [ADELIS](#) (Association des Doctorants et des jEunes chercheurs de L'Institut de Recherche de l'hôpital St Louis) are first of all, to highlight and support the research of the students. We want to support students as they work on their thesis. Moreover, we want to promote professional insertion, building connections with the extensive network of student and professional contacts. The last objective is to share experiences and meet new people by participating in the events organized by the ADELIS as well by other associations.

[StaPa](#) is the Official Young Researcher Association of Institut Pasteur! We organize social, scientific and cultural events on campus and outside. Our role is to enable the young researcher to connect with Institut Pasteur and we help them foster their ideas and manage their careers. Furthermore, we offer a networking base to organize many activities for personal growth both in academia and private research. Lastly, we work in the frame of Institut Pasteur International Network, bringing the StaPa spirit to every Institut Pasteur around the globe!

[Glob'Alps](#) is an association founded in 1999, originally named Globule38. It is run by and for doctoral students from the Chemistry and Life Sciences doctoral school at Grenoble Alpes University. Its main aim is to bring together young researchers from Grenoble's three campuses through a variety of events. It also aims to integrate those from other regions and countries. Support is also provided for masters students in their career choices, whether in the academic or private sector.

[JeCCo](#) (Jeunes Chercheurs de l'Institut Cochin) is a non-profit association, aiming to gather Cochin researchers, creating bonds and promoting exchanges between teams, as well as with other institutes in Paris! Each event is open to all members of the Institut, not only PhD students. We organize fun afterlab events, professional afterworks and a symposium every year !

Meet our ASSOCIATIONS !

[BioDocs-Lyon](#) is an association of young researchers in Biology from Lyon aiming to help the professional integration of young graduates in Life Sciences. The activities of BioDocs-Lyon (Round Tables, "Employment" Workshops, Company visits, "Network" Cocktails) take place as small group meetings between our members and professionals from the bio-industry sector. In this way, members can discover the diversity of positions that are accessible with a Bac+5/Bac+8 diploma in the Life Sciences.

The Students and Post-docs Board ([SPB](#)) is an independent, non-political, nonprofit association formed by doctoral students and post-doctoral fellows from the Institute of Genetics, Molecular and Cellular Biology (IGBMC), a leading European biomedical research center located near Strasbourg. Our activities include scientific poster sessions, career lunches, language workshops, and social events like board game nights and retreats. SPB collaborates with top European research institutes to host the Graduate Students Symposium and has been involved in organizing editions of Forum Réseau Biotechno and Forum BioChem. These events foster scientific exchange, networking, and provide insights into various career opportunities for young researchers.

[InterPharm](#) is a student association based at the School of Pharmacy of the Université Paris-Saclay. The aim of InterPharm is to organize multiple scientific, social, and cultural events in order to facilitate and guide the integration of students at the Université Paris-Saclay. Its membership includes all the students (20+ nationalities) of the International master in pharmacy «Development of Drugs and Health Products». The major event of InterPharm, each year, is the organization of the International Symposium on Research Advances in Global Health "SYMGLOH".

INTERPHARM
PARIS-SACLAY UNIVERSITY

Since its creation in 1997, the [ADIC](#) has officially been representing PhDs, PostDocs and every other young researcher of Institut Curie. Our mission is to help young researchers from the institute to integrate into our scientific community, to promote networking possibilities, to help their transition towards the next career step and to provide visibility for our Institute.

The **REAL** section (for **Read** – Analyze – **Listen**) highlights our recommendations of the month.

What you can **READ** this month ?

"Les entreprises ne savent pas utiliser les docteurs et je le regrette" - (Louis Gallois at the 70th birthday of the ANRT) - Article by aef info (fully accessible on phone only)

How to make your scientific data accessible, discoverable and useful

by Jeffrey M. Perkel

Overwhelmed with the amount of data to be managed after each new experiment you perform? Data scientists provide tips on sharing your data in a FAIR manner – findable, accessible, interoperable and reusable. This will ensure your data remains useful to other scientists to drive new research.

What you can **ANALYZE** this month ?

The State of Emerging Therapeutic Companies June 2023 by David Thomas and Chad Wessel

Report from Biotechnology Innovation Organization on the state of emerging therapeutic companies.

What you can **LISTEN** to this month ?

AI identifies gene interactions to speed up search for treatment targets

by Nick Petric Howe & Benjamin Thompson

Let's understand how an AI, 'Geneformer' uses transfer learning to make predictions about gene interactions. This has enormous potential in finding therapeutic targets especially in rare disease conditions where datasets are limited

SPECIAL EVENTS OF THE MONTH

27th September : Webinar “Scientists : why not start your own business ?”

After a summer break, the webinars are back ! This month you can meet 4 speakers:

- **Mathieu CHARVERIAT** – CEO and co-founder at THERANEXUS
- **Gautier PAPON** – Co-founder at ARGOLIGHT
- **Nicolas CHABERT** – CTO and co-founder of BIOINTRANT
- **Ramdane IGALOUZENE** – Co-founder & Scientific Director of CELLEXR (formerly "CelleX3D Studio")

Wondering what a career path in entrepreneurship looks like ? Come and meet the speakers and ask your questions !

www.reseau-biotechno.com

 Follow us  

Scientists: why not start your own business?

You hold a degree in science and feel like an entrepreneur? But you're not sure if it's for you or where to start... Attend our webinar on this topic! We'll take a look at 3 entrepreneurs' journeys: when? why? etc. You'll find out everything you want to know, and you'll be able to ask them any questions you might have, as well as find out more about the ins and outs of this adventure!

Wednesday
27th of September, 18:30

29th of September : Forum Biotechno Paris

10th & 11th October : [MedFIT](#) in Strasbourg

This year, Réseau Biotechno partners with **Eurasanté** on 2 events they are organising : MedFIT and BioFIT (BioFIT event will be presented in a later newsletter).

[MedFIT](#) is your opportunity to connect with international key innovators in **the MedTech, Diagnostic and Digital Health sectors**. As a leading European partnering event, MedFIT provides the ideal environment to build partnerships for all public and **private actors**, to **source innovative and competitive early-stage R&D projects**, to **facilitate the emergence of collaborative projects**, to **increase licensing opportunities**, to **obtain funding** and to **facilitate market access**.

Benefit from a discount on the registration fee (from 10%) if you pre-subscribe via [this link](https://www.medfit-event.com/registration-medfit-biotechno/) :

(deadline : 11/09/23)

Sept	<p>Conference “La place de la recherche dans l’innovation publique” by European metropolis of Lille</p> <p>Thursday 15th September</p> <p>Where ? Biotope 2 boulevard des Cités Unies - Lille</p> <p>Crossed perspectives of researchers and practitioners on the contributions and modes of cooperation from research to public innovation. Click here for registration details.</p>

October

2nd**Concours Graine de Chercheur by Prolific association**
Deadline for grant application, October 2nd

Are you a PhD student or a postdoc involved in Cell Biology? Apply for a 2000 € grant to support your research with Graine de Chercheur. You'll also get the chance to present your work to the general public! Find previously supported projects and the application procedure [here](#)

Oct

6th**Résaboost by Résaliance association**
Friday, 6th October
Where ? Paris

Embark on a day specially made for PhDs in Life Sciences, who want to pursue their career in the private sector. The great trio Assia, Delphine and Alexis will give you the keys to get a job in a company. Learn the strategies to search for a job, how to maintain your network, find how to write a CV to get noticed by companies, how to succeed your interviews and improve your public speaking. You can pre-subscribe [here](#).

Dear all,

Since its creation over 20 years ago, Réseau Biotechno has brought together young researchers from all walks of life! We'd like to bring together all the people who have at some time contributed to the development of a forum in a particular city or within the national network. This year, we're organizing with more than 80 members the Biotechno Forum in 4 French cities: Paris, Marseille, Grenoble and Strasbourg.

All the information gathered will be used to create a directory of the national BIOTechno Network, the aim of which is to facilitate intergenerational contact between its members, enabling them to develop future collaborations. We'd also like to organize events with you and each organizing team this year to discuss forum organization and networking in general.

This form will also enable us to send you an invitation to the Alumni LinkedIn group.

Completing this [questionnaire](#) will only **take 5 minutes**.

Thank you for your help, and see you soon!

The Biotechno Network association
